

DEKKO

EXCELLENCE

DOESN'T

HAVE AN

“ON” SWITCH

DEKKO. MEET THE FAMILY.

Dekko combines three unique brands under one company. Together, we make up our family of brands. With the collective power of Studio, ECA, and Furnlite, we provide powerful ideas and solutions—for office, hospitality, residential, healthcare, education, and more. Our brands are both unique and united.

THE DEKKO DIFFERENCE

01

WE'RE BIG ON TRUST.

Ultimately, trust is a relationship. Our goal is to never stop earning yours.

02

THINGS ARE CHANGING.
SO ARE WE.

We do more than refine technology. We proactively evolve it based on user needs.

03

WE BELIEVE IN THE
POWER OF IDEAS.

Ours or yours. We'll design, prototype, test, and deliver powerful innovations.

NOTICE THE POWER. OR DON'T.

At Dekko, we innovate for integration. You'll find us on tables and on walls; on the side of a chair and the corner of a desk. We're accessible when you need us, enhancing the space around you - and that's no mistake. We put countless hours into designing solutions so seamless that they become part of your life.

EXPECT EXCELLENCE

UNAPOLOGETICALLY UPSCALE.

Studio by Dekko holds a single philosophy: be elegant. We take complex problems and turn them into intelligent solutions, designing products that are as purposeful as they are stunning. Every day, we obsess over the texture of materials, the nuances of fit and feel, and design that draws people in.

DIO

BY DEKKO

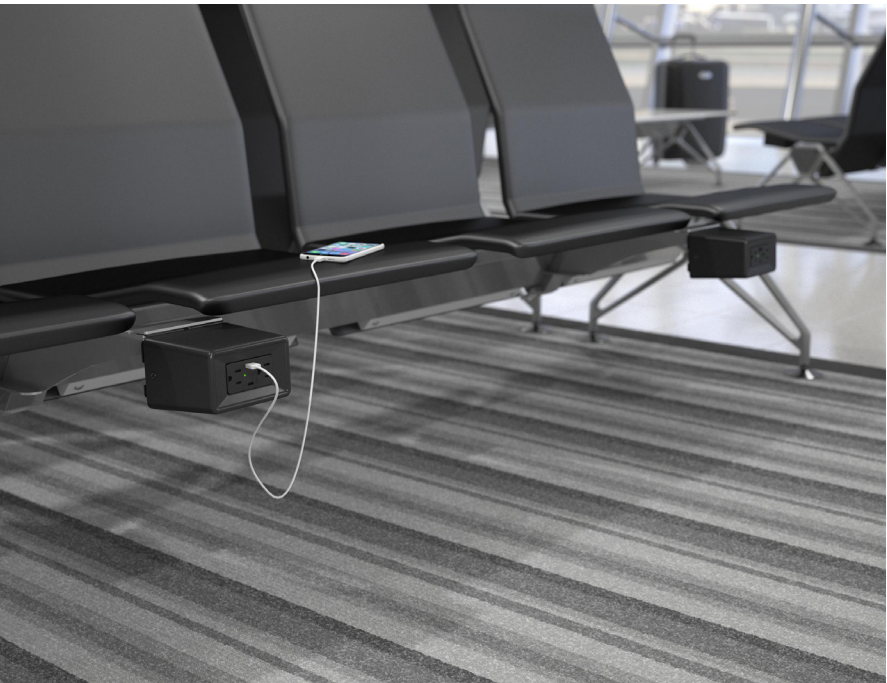

POWERING MOMENTUM

SMILE. YOU'VE GOT POWER.

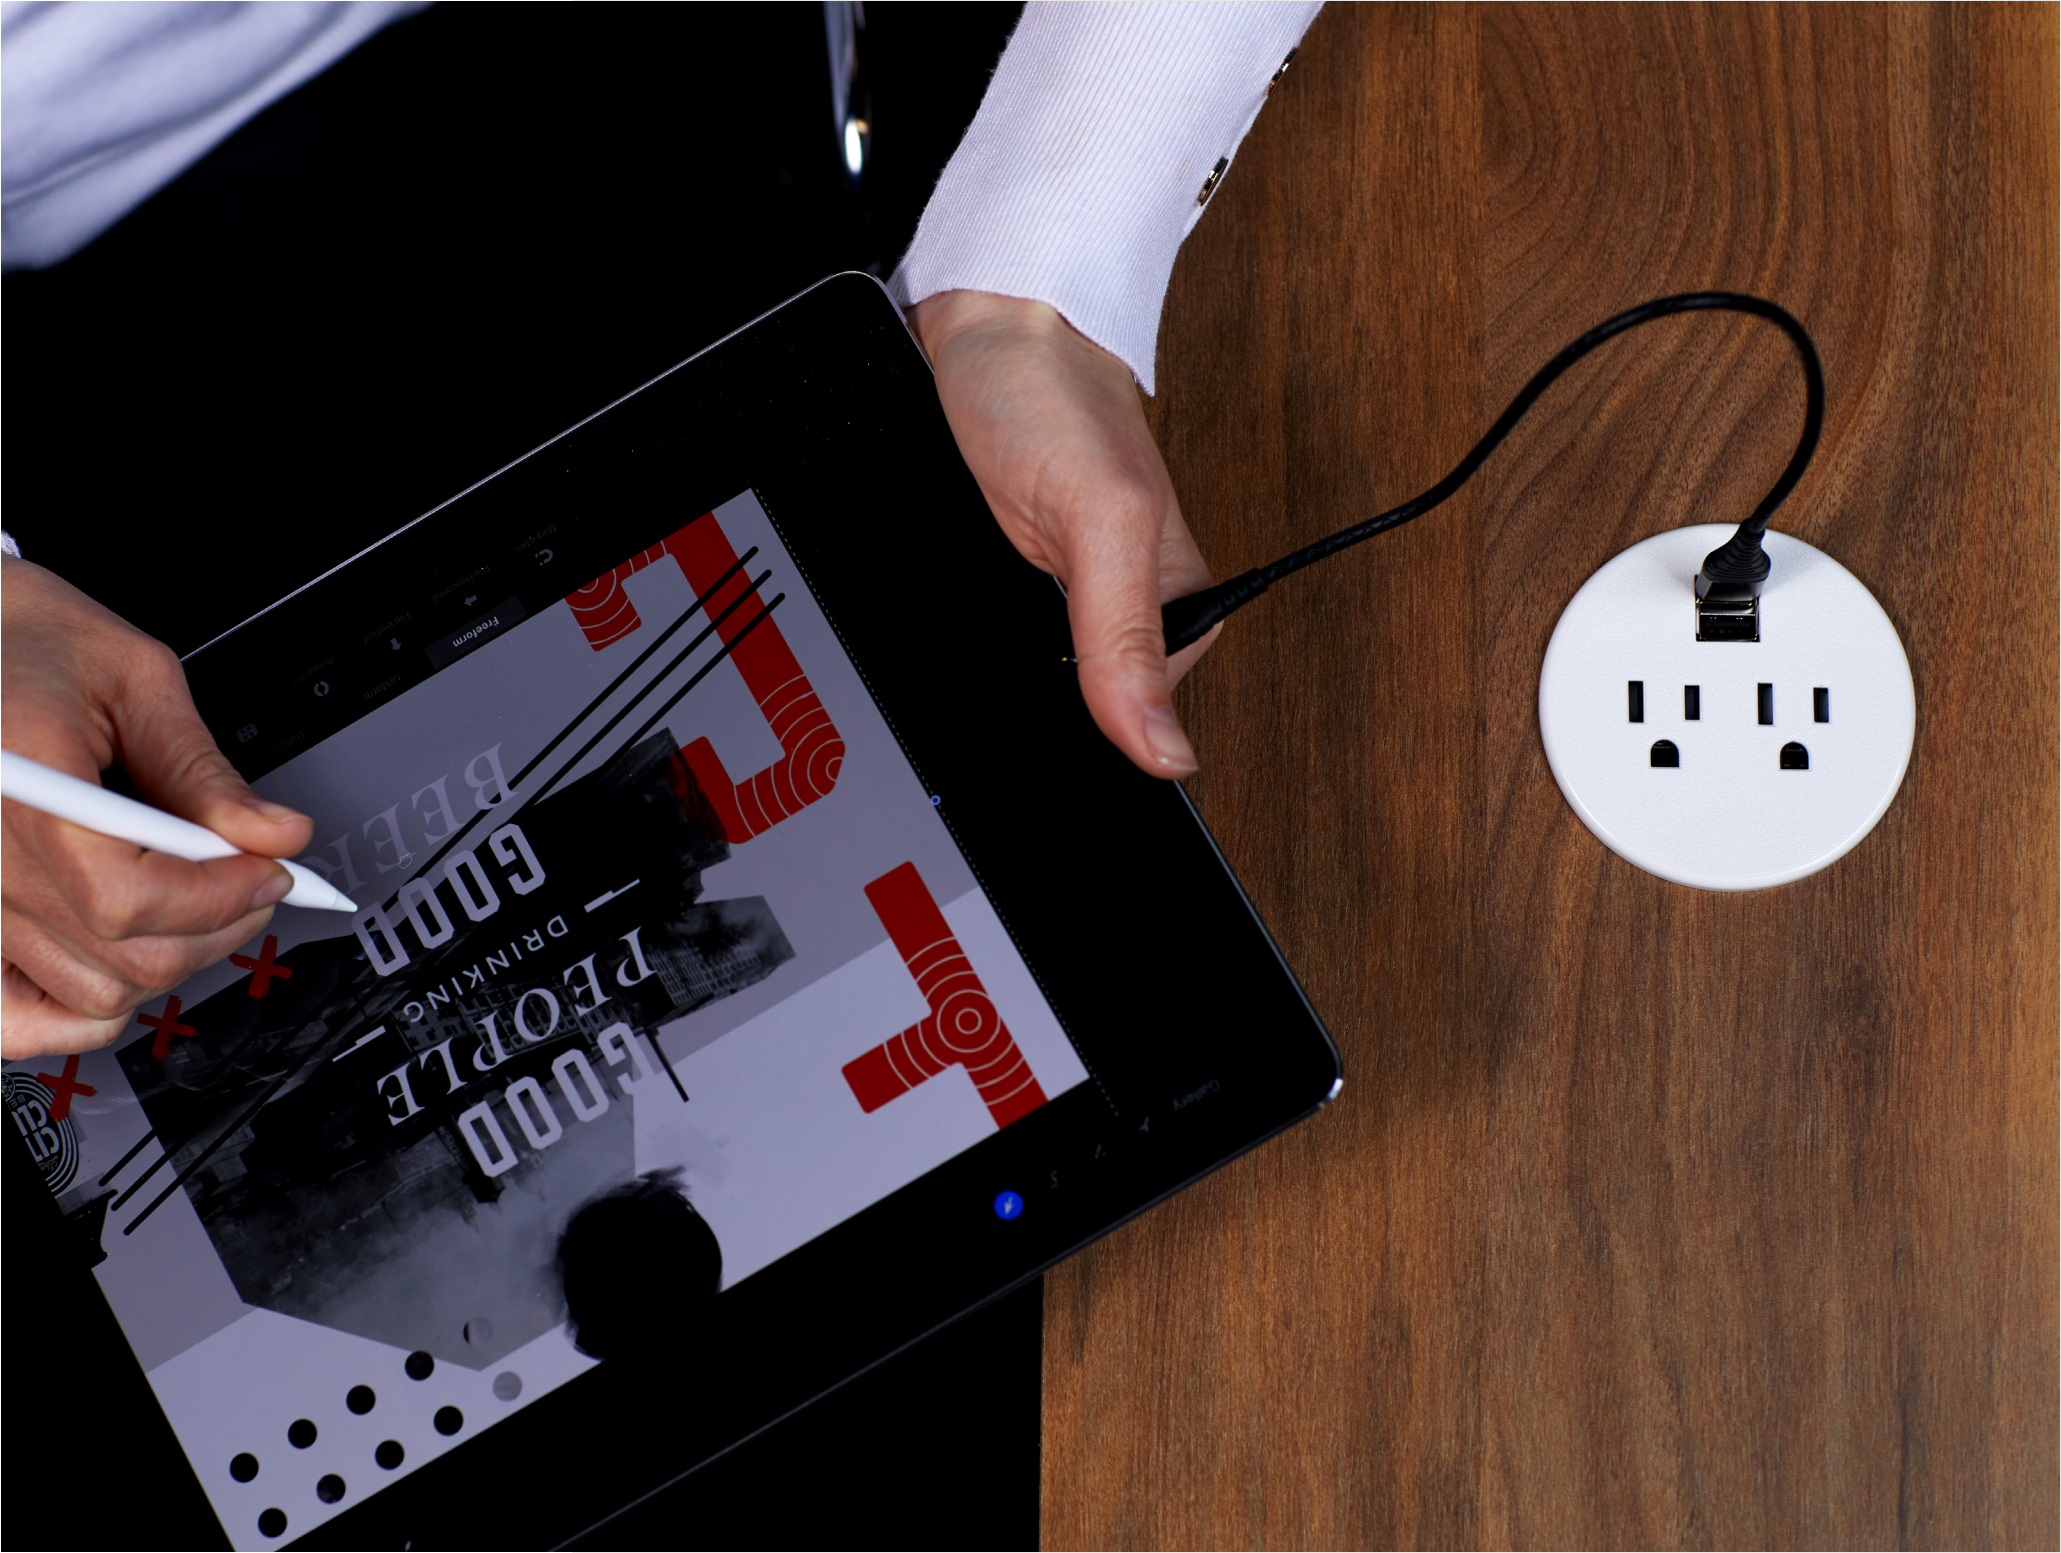

ECA by Dekko embraces the challenge of moving power solutions forward. To be more intuitive, more imaginative, and, more smile-worthy. It's not easy, but when you pay attention to trends, harness the best of technology, and listen to your customers, new ideas just take flight with more ease.

GOING PLACES

TAKE YOUR GUESTS ON A POWER TRIP.

Furnlite by Dekko can be spotted across the world of hospitality. From lobby bars to guest room bedsides, we're always there, providing reliable power that amps up the environment. After a long day, guests shouldn't have to travel far to charge up. With Furnlite, they don't have to.
